GAIN Report #HR3001

## **Croatia**

### **Livestock and Products**

### **Q-Fever Outbreak in Croatia**

**2003**

Approved by:

**Paul Spencer-MacGregor**

**U.S. Embassy**

Prepared by:

Andreja Misir

---

**Report Highlights:** On February 7, 2003, in the Croatian village of Gale, (near Split in the southern part of the country), veterinarians discovered several sheep with Q-fever. Some people from the village were hospitalized because they also showed signs of infection. The Ministry of Agriculture will test all the sheep, goats and cattle in the region. All the diseased animals will be destroyed. All tested animals will be marked, diseased herds will be fenced, and all animal owners will be forced to tighten controls on breeding stock.
